@WeRatDogs Twitter Analysis

Twitter user @dog_rates, also known as @WeRateDogs which has over 9 million followers and has received international media coverage. @WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc.

The account has over 9 million followers and its follower base keeps increasing as the days go by. A

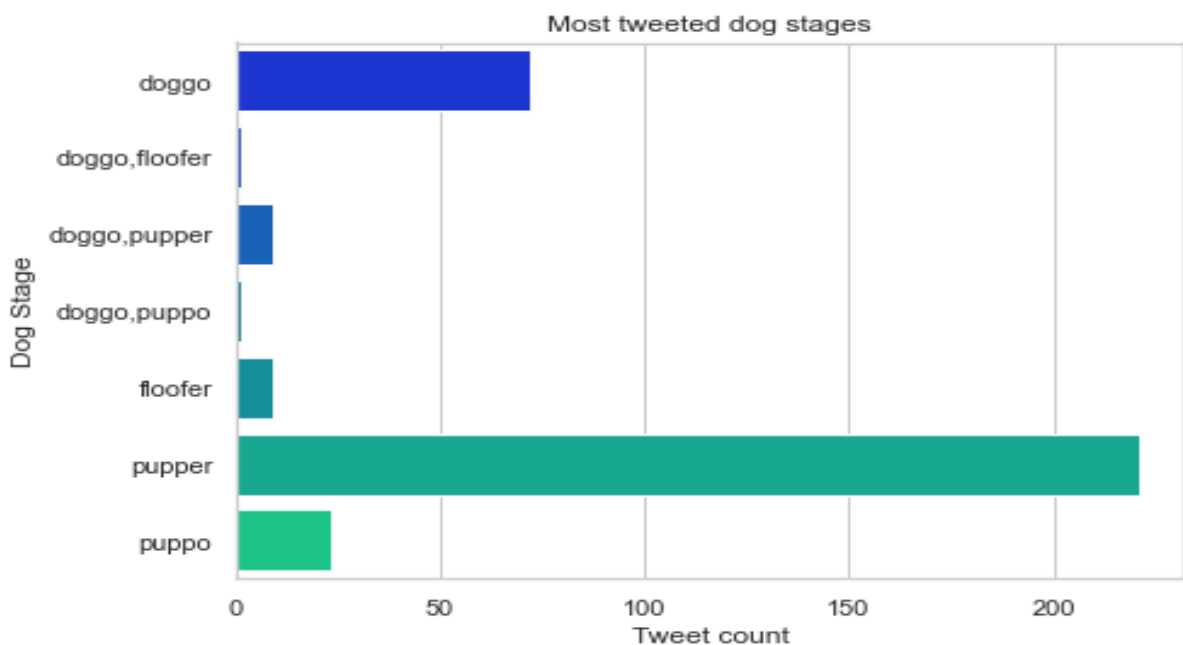

In this analysis: I have gathered @WeRateDogs Twitter Data from three various resources – Twitter API, Archive and Image prediction - and performed data wrangling to make a high quality and tidy master dataset. During the analysis, three (3) questions were raised:

1. Which is the most tweeted dog breed?
2. Which is the most tweeted dog stage?
3. Relationship between retweet count and favourite counts?

All raised questions were asked successfully. For Question 1, The most tweeted dog breed, based on the wrangled data analysis is **Golden Retriever**. Let's, visualize the top 10 most tweeted "Dog Breeds".

For Question 2, The most tweeted dog stage is Pupper. The analysis also revealed that the next most tweeted stage is doggo.

For Question 3, As revealed by the analysis the **Relationship between retweet count and favourite counts is a positive correlation, with an r of 0.928.**

Relationship between Retweet and Favourite count

Conclusions

- The most tweeted dog breed is the **Golden Retriever**.
